Sheridan.

CLEARANCE CARDS.

In issuing clearance cards operators will first fill out clearance designating thereon numbers of orders, repeat to dispatcher train and order numbers as they appear on clearance, and obtain O. K. with time and dispatcher's initials, writing same before delivery in blank space following "signal is out for."

Operator will retain carbon copy of all clearances.

Dispatcher must write train and order numbers in his train order book as transmitted by operator from clearance card and must designate time clearance was made O. K., not transmitting O. K. unless operator repeats numbers of all orders to be delivered to the train to which clearance is addressed.

Conductors and engineers must not accept clearance cards with order numbers thereon unless properly O. K.'d as above.

All trains must obtain clearance card, Form 2643, before leaving Medford, Grants Pass, Eugene, Albany, Salem and Jefferson Street Depot.

Rule 83-A will not apply at initial stations which are not telegraph stations nor at telegraph stations when there is no operator on duty.

REGISTER EXCEPTIONS.

First-class trains will leave register ticket (Form 2642) with operator at Brooklyn who will register for them.

Nos. 3, 4, 39 and 40 will leave register ticket (Form 2642) with the operator at Oswego, who will register for them.

Woodburn: Only trains originating or terminating at Woodburn will register.

Cottage Grove: Only Nos. 19 and 20 will register.

At a station where a train registers by ticket conductor and operator must comply with Rule 96 the same as at a non-register station.

AIR BRAKE TESTS AND INSPECTION.

Air brakes must be tested whenever the train line is broken as per Air Brake Rule 14. When signal from rear of train cannot be seen owing to foggy weather or position of train on curve, engineer will sound one blast of the steam whistle and rear brakeman will apply brakes as required in Rule 14. Engineer should watch gauge and if proper reduction made acknowledge same by two short blasts of the steam whistle. This test should also be made on eastward trains at Bertha and Grants Pass and westward trains at Glendale. Rule 24 should be observed when helper engines are cut out or picked up ahead of the regular engine.

Retainers must be turned up on passenger and freight trains westward, from Tunnel 8 to Wolf Creek, Tunnel 9 to Merlin and Dimmick to Grants Pass; eastward, from Dimmick to Merlin, Tunnel 9 to Leland, Tunnel 8 to Glendale; also on eastward and westward freight trains, Rice Hill to foot of grade, and from Divide to Comstock, westward; passenger and freight trains, from Bertha to Portland.

The following points are designated for careful inspection of running gear, brake and draft rigging of trains by freight train crews: Woodburn, Salem, Albany, Eugene, Cottage Grove, Drain, Glendale, Grants Pass, Medford, Silverton, Lebanon, Newberg, Whiteson, Beaverton and Independence. Westbound freight trains will stop at Hugo five minutes to permit cooling and a superficial examination. Train crew should make careful inspection of trains at any point where trains stop, or at points where slow movement of train would permit trainmen to stand on ground and watch for defects as train is pulled past.

AUTOMATIC BLOCK SIGNALS.

On single track trains will wait five minutes in accordance with Rule 504 before following flagman. Excepting between Willsburg Junction and East Morrison Street trains stopped by block signal will wait one minute then proceed under control, not exceeding six miles per hour, to next signal.

On single track within automatic block signal limits last portion of Rule 86 will not apply.

LOCATION OF INTERLOCKING PLANTS.

Willamette River Bridge between East Portland and Portland.
Oregon Electric crossing east of Beaverton.
Oregon Electric crossing between Tigard and Robinson.
At Oregon Electric crossing between Tigard and Robinson.

SPEED RESTRICTIONS.

Maximum speed of any train at any point must not exceed 50 miles per hour, and no train shall exceed a speed of 25 miles per hour around curves of 7 degrees or over.

Speed of Consolidation and Mikado Engines (2500, 2800 and 3200 class) restricted to a maximum of 35 miles per hour, and 20 miles per hour around curves of 7 degrees or over.

Pacific Type, Atlantic Type and 2300 class Engines restricted to 30 miles per hour between M. P. 641 and 644, and 35 miles per hour between Comstock and Drain; 30 miles per hour between Drain and Rice Hill, and Sutherlin and Green. Consolidated and Mikado Engines 25 miles per hour between M. P. 641 and 644, Comstock and Rice Hill, and Sutherlin and Green.

Maximum Speed Engines running light as follows: Atlantic Type, 50; Pacific Type, 50; Ten-wheel Vauclain Compound, 45; Ten-wheel changed to simple; 45; Ten-wheel Nos. 2301 to 2352, inclusive, 45; Eight-wheel American Type, 50; Consolidation Type, 35; Mikado Type, 35; Mogul Type, simple and compound, 45; Switch Engines, 20 miles per hour. Maximum speed engines backing up on main track between Ashland and Portland, 25 miles per hour; all branch lines, 20 miles per hour, excepting Oswego locals passenger and Nos. 6 and 8 McMinnville passenger, 25 miles per hour.

Trains handling Steam Wrecking Crane must not exceed 25 miles per hour.

Trains handling logs not chained must not exceed 6 miles per hour over truss bridges.

Trains must reduce speed to 6 miles per hour in passing over facing point spring switches on Fourth and Jefferson Streets, Portland; 10 miles per hour on Fourth and Jefferson Streets, Portland; over Willamette River Bridge, Portland, Elk Rock trestle, passing Shop buildings, Brooklyn, over Clackamas Southern Railway Crossing east of Oregon City, and over grade crossings between Willsburg Junction and Brooklyn; 15 miles per hour on curve one mile west of Oregon City and over trestle approaches to Willamette River bridge between Oswego and Milwaukee; 20 miles per hour at Rock Point where track approaches the river west of New Era; around curves east and west of Clackamas and Winchester bridges; and Willamette River bridge between Harrisburg and Junction City.

The following speed table is for the information of engineers and must not be considered in any way to authorize exceeding speed limit specified above.

	Passenger.	Freight.
Portland-Divide	50	30

LOCATION OF OVERHEAD AND SIDE OBSTRUCTIONS.

Train employes are cautioned not to lean out of engine cab window while passing over Clackamas River bridge.

Train and enginemen are cautioned to keep a sharp lookout especially on curves on West Side and Yamhill lines, where trolley poles and wires are being put up in connection with electrification work. Avoid coming in contact with these wires as they carry high voltage current. Trolley wire running through Tualatin and South Yamhill River bridges will not clear men on top of box car.

MAIN TRACK LINE UP AT JUNCTIONS.

Junction switches at Cook and Oswego must be left set and locked for movements between Portland and St. Joseph via Rivera and Newberg.

Junction switch at Beaverton must be left set and locked for movements via Hillsboro-Bertha line.

SPECIAL RULES—Continued

Junction switch (second connection east of crossing) at Dallas must be left set and locked for the S. F. C. & W. connection.

Junction switches of detour at Forest Grove must be left set and locked for movements via Forest Grove City Station.

Junction switch (west leg of wye) at Springfield must be left set and locked for movements via Springfield and Springfieldl Jct. ine.

The junction switch leading to the Jefferson Street line at Fourth and Jefferson Streets, Portland, is a spring switch and will be left as used. Therefore, westward trains must approach this switch under control, expecting to find it lined up against them.

YARDS.

All trains must be under control within yard limits as listed below. See Rule 93.

PORTLAND (Portland, yard limits extend to yard signs west of Willsburg Junction. Bancroft and Southern Portland.)
OREGON CITY
CANBY
WOODBURN
SALEM (Salem, yard limits extend to yard sign east of Fair Grounds.
ALBANY (Albany, yard limits extend to yard signs west of Albany Junction.)
JUNCTION CITY
EUGENE (Eugene, yard limits extend to yard sign west of Springfield Junction.)
COTTAGE GROVE (Cottage Grove, yard limits extend to yard sign west of Latham.)
DRAIN
ROSEBURG
WEST FORK
GLENDALE
GRANTS PASS
MEDFORD
ASHLAND
SPRINGFIELD (Springfield, yard limit extends to yard sign east of Fisher-Balle Mills, west of Mohawk Junction; also includes cut-off between Springfield and Springfield Junction.)
COBURG
BROWNSVILLE
OAKRIDGE
LEBANON
SILVERTON
TALLMAN
WENDLING
BEAVERTON
HILLSBORO
FOREST GROVE
CARLTON
ST. JOSEPH
McMINNVILLE
WHITESON
INDEPENDENCE
CORVALLIS
OSWEGO
COOK
NEWBERG
BROADMEAD
SHERIDAN
DALLAS

At Eugene and Canby P. E. & E. trains will use S. P. tracks, and at Salem S. F. C. & W. trains will use S. P. tracks between their connection at Union] St. and passenger station; all trains will move under control expecting to find track occupied. S. P. freight trains and yard engines must not delay passenger trains.

Between 6:00 P. M. and 7;00 A. M. trains using the Geer line between main line junction and yard limits, Salem, will move under control expecting to find track occupied by cars and yard engines.

LOCATION WATER TANKS BETWEEN STATIONS.

One half-mile west of Tunnel 9.
One-fourth mile west of Pollard.
Four miles west of Cornutt.
One-eighth mile west of Rock Spur.

MISCELLANEOUS.

Trainmen and enginemen are subject to the rules and regulations of the Northern Pacific Terminal Company while in their yard.

Trains will leave Portland terminal yard only on receiving "Proceed" signal from tower semaphore at Fourth Street, calling for and acknowledging same per Rule 221-A. West Side trains, in and out of Union Depot, Portland, will be governed by position of semaphore at Fourth Street.

Trains consisting of more than 20 cars will cut off engine to take water, and will also cut off way cars before spotting.

Flues of engines must not be sanded while crossing overhead bridges.

Steam engines will not take the sharp curve on the detour at Forest Grove between the wye and new passenger station.

Eastward trains must stop before fouling the crossing at Fourth and Jefferson Streets, Portland.

All trains must stop before crossing electric tracks at Flanders, Stark, Salmon and Front and Jefferson Streets, Portland.

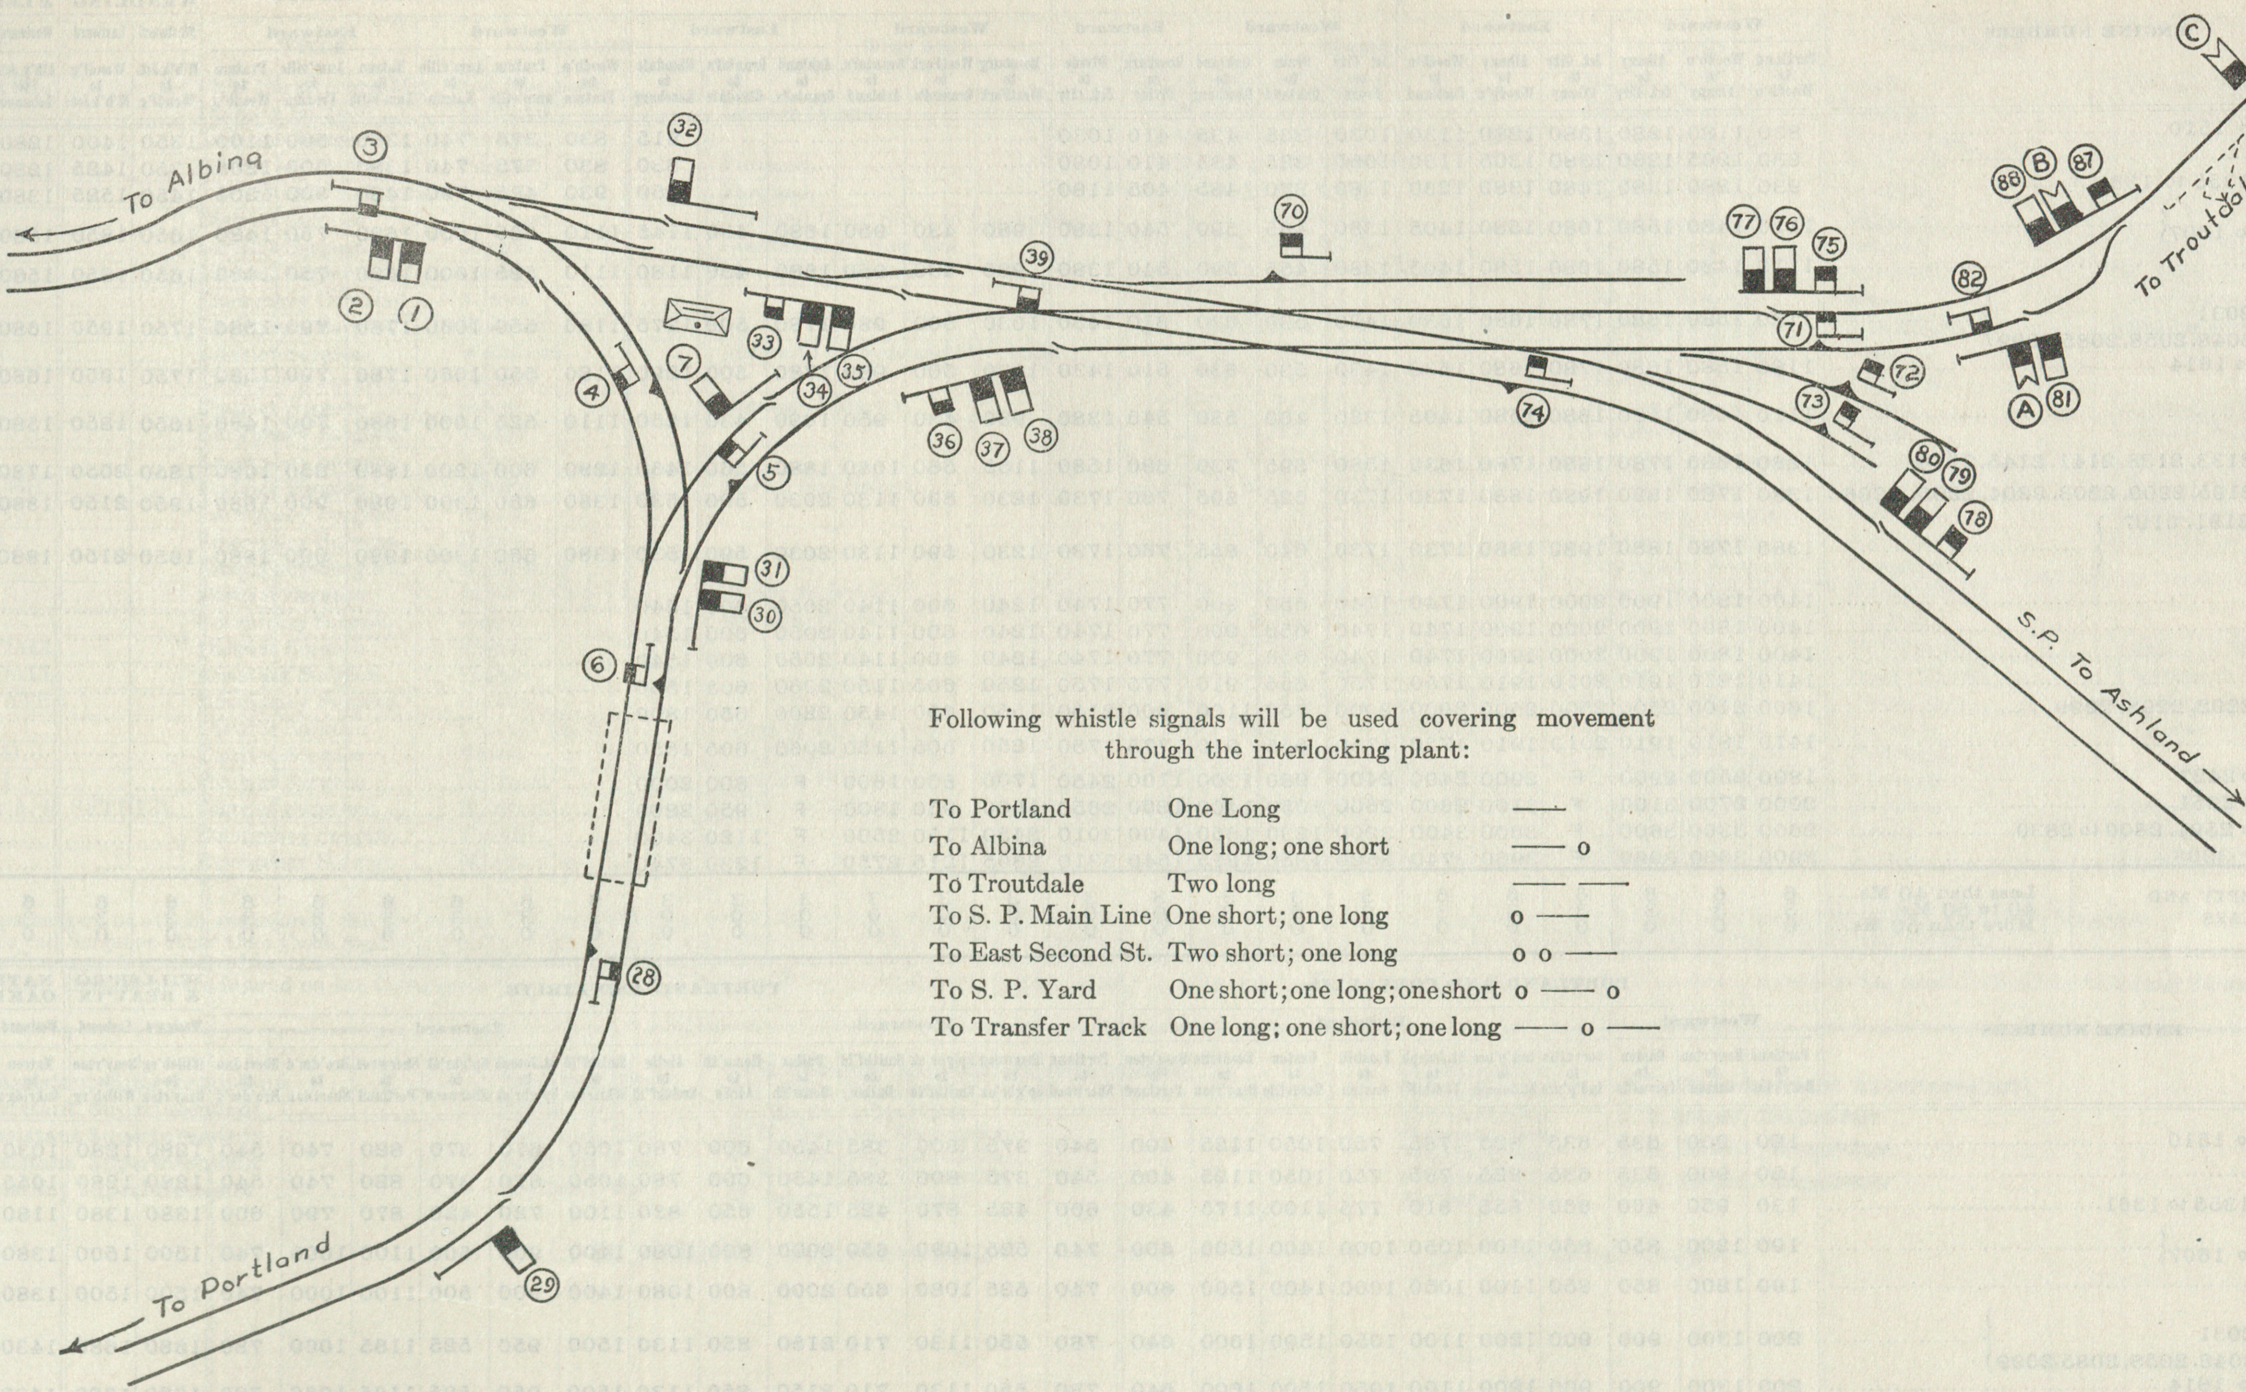
EAST PORTLAND INTERLOCKING PLANT



Following whistle signals will be used covering movement through the interlocking plant:

To Portland	One Long	——
To Albina	One long; one short	—— o
To Troutdale	Two long	—— ——
To S. P. Main Line	One short; one long	o ——
To East Second St.	Two short; one long	o o ——
To S. P. Yard	One short; one long; one short	o —— o
To Transfer Track	One long; one short; one long	—— o ——

This plant will govern the movement of trains between Front Street, Portland, and the junction switches on the Albina Line at East Portland, junction switch on the O.-W. R. & N. Line at Union Avenue and Signals 78, 79 and 80 on the Southern Pacific Tracts at East Portland.

Signal No. 29 will govern the movement of trains from Front Street, Portland, to Signals 30 and 31.
Signal 30 will govern the movement of trains to Albina.
Signal 31 will govern the movement of trains to Signals 36, 37 and 38.
Signal 38 will govern the movement of trains to Signal 81.
Signal 37 will govern the movement of trains to Southern Pacific main line.
Signal 36 will govern the movement of trains to East 2nd Street and to S. P. side tracks leading off eastbound S. P. main line.
Signal 7 will govern the movement of trains over the Willamette River Bridge to Front Street, Portland.
Signal 77 will govern the movement of trains to Signal 7.
Signal 76 will govern the movement of trains to Signal 32.
Signal 75 will govern all switching movements not covered by Signals 76 and 77.
Signal 88 will govern the movement of trains to Signals 75, 76 and 77.
Signal 87 will govern the movement of trains on to Eastward O-W. R. & N. track against current of traffic to Signal 71.
Dwarf Signals 3, 4, 5, 6, 28, 39, 70, 71, 72, 73, 74 and 82 will govern the movement of trains against the current of traffic and switching movements.

Signal 1 will govern the movement of trains to Signals 33, 34 and 35.
Signal 2 will govern the movement of trains over the Willamette River Bridge to Front Street, Portland.
Signal 32 will goven the movement of trains to Albina.
Signal 35 will govern the movement of trains to the S. P. main line.
Signal 34 will govern the movement of trains to Signal 81.
Signal 33 will govern the movement of trains against the current of traffic and switching movements.
Signal 80 will govern the movement of trains to Signal 32.
Signal 79 will govern the movement of trains to Signal 7.
Signal 78 will govern all switching movements not covered by Signals 79 and 80.
Signal 81 will govern the movement of trains out through junction switch to Troutdale.
Signal "A" is a distant signal giving the indication for the eastbound automatic signal at the junction switch at Union Avenue.
Signal "B" is a distant signal that indicates the position of Signal 77 in advance.
Signal "C" located 2000 feet east of Union Avenue is a distant signal indicating the position of Signal 88.

DR. W. S. CARY	District Surgeon	Dallas	Sheridan Jct to Airlie.
DR. A. B. STARBUCK	District Surgeon	Dallas	Sheridan Jct. to Airlie.

When employes, passengers or others are injured, call the nearest Company Surgeon, preferably District Surgeon. Emergency Surgeons are called only when patients cannot be sent to or await the arrival of District Surgeons.
When necessary to call Surgeons other than those regularly employed by the Company, it should be with the distinct understanding that their services will not be required after the arrival of Company Surgeon.
Any officer of the Company is authorized to call Company Surgeons to attend the injured.
When tramps or other trespassers are injured on the Company's Lines, they should be turned over to friends, or to city, county or other local relief authorities, after immediate necessary attention has been rendered by Company Surgeon.
